

Adolfo del Campo – Managing Director, Ingemat (ArtiFlex Automation Group)

Adolfo leads Ingemat, part of the ArtiFlex Automation Group, overseeing operations in both Spain and Mexico. He is responsible for unlocking the full potential of a growing organization by fostering a culture of innovation, strategic business development, and operational excellence. Under his leadership, Ingemat is advancing toward its vision of becoming the premier automation partner for the global automotive industry while expanding its footprint beyond automotive applications.

Adolfo's executive leadership is centered around empowering people, driving scalable growth, and forging lasting relationships with both customers and suppliers. His strategic direction and focus on team-building have positioned Ingemat as a global player in the automation sector.

He brings more than two decades of international experience in sales, management, and strategy across multiple industrial sectors. Since joining Ingemat in 2013, he has led the company through significant transformation, including becoming a shareholder in 2017. His past experience includes leadership roles at ANTEC (renewable energy sector) and Rothenberger (tools industry), where he held positions in Product Management, Key Account Management, Export Sales, and served as Country Manager for Mexico. In his free time, he loves spending time with his family, skiing in the winter, and traveling to new countries and experiencing new cultures.

Major Accomplishments and Milestones:

- Led Ingemat's growth from €12 million in sales in 2013 to over €40 million in 2024, achieving record profitability
- Built and scaled a young, enthusiastic, and globally connected team across Europe, Asia, and the Americas
- Awarded the Silver Medal by Dr. Helmut Rothenberger in 2007 for outstanding contributions to Product Management within the Rothenberger Group
- Industrial Engineering degree and MBA, with several postgraduate studies in Sales and Management from top Spanish business schools
