

Jeremy Boggs- Executive Director of Innovation

Jeremy leads the ArtiFlex Innovation team to drive success in program management, ME coordination, and quality. He is responsible for ensuring delivery on safety, cost, quality, and timing for our Innovation, Automation, Tooling, and Manufacturing groups. Jeremy strives to lead a matrix organization managing launch as its own profit center complete with budget, cashflow, balance sheet, and P&L responsibility. With this action plan, he aims to guarantee and accelerate the growth of ArtiFlex by executing at the highest level.

With over 25 years of experience including Tier 1 automotive and non-automotive roles with blanking, stamping, welding, laser cutting, and assembly, he is fit to execute and launch each project that comes through ArtiFlex. Jeremy's diverse background of technical and non-technical roles in quality, engineering, operations, plant management, lean manufacturing, sales/estimating, and program management gives him the vast knowledge to develop ArtiFlex's execution management process.

Major Accomplishments and Milestones:

- Studied Environmental Engineering at Glenville State College from 1995-1999
- Studied Business at Liberty University in 2017
- Introduction to servant leadership to develop his management and leadership approach to both his professional and personal life.
- Corporate Advisor for Engineering Leadership Program at Ashland University
