

Steven Delmoro- Executive Director of Advanced Manufacturing & Engineering

Steve strategically pursues and grows profitable sales with existing and new customers and markets. He identifies opportunities that leverage all offerings of ArtiFlex to include Engineering, Die Tooling, Automation, and Production processes. Steve has led the ArtiFlex Business Development and Program Management teams for 12 years. Steve started as an engineering intern with Gerstenslager. Graduating with a degree in Manufacturing System Engineering, he enjoyed several positions in Operations, Quality, Maintenance, and Program Management.
